

**One Day Training Workshop
On
Together For Tolerance
22nd February, 2018
Bacha Khan University
Charsadda**

Together for Tolerance is Pakistan's largest youth movement, geographically, across 70 universities in all 5 provinces. As the name suggests, this movement has been initiated to promote and build the muscles of tolerance in individuals, homes and communities. The movement is owned by TFT members studying in universities across Pakistan and is being led by Carnelian, Pakistan's premier communications consulting firm.

Tolerance is about accepting and respecting the 'other'. Accepting the fact that human beings are naturally diverse in their appearance, style, speech, behavior, mannerism and values and have the right to be accepted and appreciated as they are. It means one's views are not to be imposed on others.

In view of the present circumstances where the society is faced with tremendous problems of intolerance, The Office of Research, Innovation and Commercialization (ORIC), Bacha Khan University, Charsadda, with technical collaboration of Together For Tolerance Pakistan (TFT), organized a One Day Workshop on 22nd February, 2018 at the Main Hall of the Bacha Khan University. More than 200 students and faculty members of the University attended the workshop. Dr. Akbar Shah Mohmand, Director, ORIC, introduced the TFT team and highlighted the importance of the workshop. The team leader, Mr. Naveed Khan, Director and Mr. Waleed Anwar, Relationship Manager, TFT Pakistan delivered lectures on the various aspects of tolerance and the role of TFT in this regard. Most of the students and faculty took active part in question/answer session while the team members explained their view points on the subject.
